

Important Information for Smooth Delivery

Due to recent restrictions at various transit locations and destination countries, and to ensure efficient and timely delivery of your shipment, we advise you to adhere to and comply with export requirements for all destination countries to which you are shipping.

It is important you align with, and follow the required regulations for timely delivery of the following items, which may require additional processing or pose regulatory challenges:

- 1. Medications**
- 2. Food items**
- 3. Jewelries – Restricted within the AJ Courier & Logistics network**
- 4. International Passports – shipped only to the Country Embassy and not to an individual address**
- 5. Personal Identification cards, ATM Cards**
- 6. Licenses and Sensitive documents, including Original Copies of Certificates**
- 7. Artifacts, paintings, museum items**

Destination border control and the respective government agencies may inspect, delay, or confiscate these items should they find any reason to do so, without recourse to the shipper, Consignee, or AJCL, potentially affecting deliveries and delivery timelines.

Please note that by using this service, you acknowledge that such regulatory processes, security checks, transit delays may apply, and you agree to absolve AJCL of any delivery delays, and indemnify AJCL of any consequential losses, seizures, damages, or confiscation by border or respective government agencies.

We appreciate your understanding and thank you for choosing UPS Nigeria.
